

The Milford School Board recognizes that developmentally appropriate daily physical activity, exercise, and physical education are ways to minimize health risks created by chronic inactivity, childhood obesity, and other related health problems. The Board recommends that students and staff participate in developmentally appropriate physical activity and exercise for at least 30 to 60 minutes each day as a way to minimize these health risks. The Board recommends the following practices:

1. Encourage parents/guardians to support their children's participation in enjoyable physical activities, and recognize that parents/guardians act as role models for active lifestyles;
2. Support special programs such as student and staff walking programs, family fitness events, and events that emphasize life-long physical activity;
3. Integrate health and physical activity across the school curriculum;
4. Encourage student-initiated activities that promote inclusive physical activity on a school-wide basis;
5. Commit adequate resources that include program funding, personnel, safe equipment, and facilities;
6. Provide professional development opportunities for all school staff that will assist them to effectively promote enjoyable and lifelong physical activity among youth, and that will assist school staff to recognize their influence as role models for active lifestyles;
7. Establish relationships with community recreation and youth sports programs and agencies to coordinate and complement physical activity programs;
8. Encourage physical movement during classroom and recess periods as well as at before and after-school activities;
9. Commit a tracking and evaluation method to ensure that all students are engaging in developmentally appropriate daily physical activity.

The District's Wellness Committee (formed pursuant to Board policy 2285 (JLCF) Wellness) is charged with monitoring the implementation of this policy. At least as frequently as the Triennial Assessment required under Section II.C of policy 2285 (JLCF) Wellness, the Wellness Committee will report to the Superintendent with

recommendations for how to advance the objectives stated above. The Superintendent will review the recommendations and report the same to the Board.
