

The School Board recognizes that technological resources can enhance performance by offering effective tools to assist in providing a quality instructional program, facilitating communications with parents/guardians, teachers, and the community, supporting District and school operations, and improving access to and exchange of information. The Board expects all staff and students to learn to use the available technological resources that will assist them in the teaching and learning, communication services, and/or business data services. As needed, staff and students shall receive training, lessons, and instruction in the appropriate use of these resources.

Staff and students shall be responsible for the appropriate use of technology and shall use the District's technological resources primarily for purposes related to their education and/or job responsibility. Staff and students are hereby notified that there is no expectation of privacy on district computers, computer files, email, internet usage logs, and other electronic data.

The Superintendent or designee shall ensure that all District computers with Internet access have a technology protection measures that prevent access to visual depictions that are obscene or pornographic and that the operation of such measures is enforced. The Superintendent or designee may disable the technology protection measures during use by an adult to enable access for bona fide research, educational or other lawful purpose.

The Superintendent shall establish administrative regulations and an Acceptable Use Agreement that outlines staff and student obligations and responsibilities related to the use of District technology. He/she also may establish guidelines and limits on the use of technological resources. Inappropriate use may result in a cancellation of the staff member's or student's user privileges, disciplinary action, and/or legal action in accordance with law, Board policy, and administrative regulations.

The Superintendent or designee shall provide copies of related policies, regulations, and guidelines to all staff and students.

### Purpose

The purpose of the Acceptable Use Procedures is to provide the procedures, rules, guidelines, and the code of conduct for the use of technology and the Internet.

### Definition

The definition of "information networks" is any configuration of hardware and software which connects users. The network includes, but is not limited to, all of the computer hardware, operating system software, application software, stored text and data files. This includes electronic mail, local databases, externally accessed databases, CD-ROM, recorded magnetic or optical media, clip art, digital images, digitized information, communications technologies, and

new technologies as they become available. Stand-alone workstations are also governed by this acceptable use procedure.

### The School District Services

The School District provides resources for teaching and learning, communication services, and business data services by maintaining access to local, regional, national, and international sources of information. The School District information resources will be used by members of the school community with respect for the public trust through which they have been provided and in accordance with policy and regulations established by the School District. These procedures do not attempt to articulate all required for prescribed behavior by its users.

Successful operation of the network requires that all users conduct themselves in a responsible, decent, ethical and polite manner while using the network. The user is ultimately responsible for his/her actions in accessing network services.

### Guidelines

1. Access to the networks and to the information technology environment within the District is a privilege and must be treated as such by all users of the network and its associated systems.
2. Information networks will be used for the purposes of research, education, and school-related business and operations.
3. Any system which requires password access or for which the District requires an account, such as the Internet, will only be used by the authorized user. Account owners are ultimately responsible for all activity under their accounts.
4. The resources of the District are limited. All users must exercise prudence in the shared use of this resource.

### Unacceptable Use

The District has the right to take disciplinary action, remove computer and networking privileges and/or take legal action, for any activity characterized as unethical and unacceptable.

Unacceptable use activities constitute, but are not limited to, any activity through which any user:

1. Violates such matters as institutional or third-party copyright, license agreements or other contracts. The unauthorized use of and/or copying of software is illegal.
2. Interferes with or disrupts other network users, services or equipment. Disruptions include, but are not limited to: distribution of unsolicited advertising, propagation of computer worms or viruses, distributing quantities of information that overwhelm the system, and/or using a District network to make unauthorized entry into any other resource accessible via the network.

3. Seeks to gain or gains unauthorized access to information resources.
4. Uses or knowingly allows another to use any computer or computer system to devise or execute a scheme to defraud or to obtain money, property, services, or other things of value by false pretenses, promises, or representations.
5. Destroys, alters, dismantles or otherwise interferes with the integrity of computer-based information and/or information resources.
6. Invades the privacy of individuals or entities.
7. Uses the network for commercial or political activity.
8. Installs unauthorized software for use on District computers.
9. Uses a network to access inappropriate materials.
10. Submits, publishes or displays any defamatory, inaccurate, racially offensive, abusive, obscene, profane, sexually oriented, or threatening materials or messages either publicly or privately.
11. Uses a District network for illegal harassing, vandalizing, inappropriate or obscene purposes, or in support of such activities.

### Policy Violations

Any actions that might harm computer equipment, software, data, another user, or the internet, or that show disregard for the proper procedures set up for network access will not be tolerated. Violations of this policy may result in restrictions or suspension of the user's technology use or network privileges, disciplinary action, and/or legal action in accordance with the law, Board policy and administrative regulations. Further, any users of the School District's computer systems or networks who intentionally violate the District's policy and who intentionally damage the computer systems or network or misuse the internet shall assume legal and financial liability for such damage.

### School District Rights

The District reserves the right to:

1. Monitor all activity. Notwithstanding any related laws, staff members and students have no expectation of privacy regarding their use on the school district computer network.
2. Make determinations on whether specific uses of a network are consistent with these acceptable use procedures.

3. Log network use and monitor storage disk space utilization by users.
4. Determine what is appropriate use.
5. Remove a user's access to the network at any time it is determined that the user engaged in unauthorized activity or violated these acceptable use procedures.
6. Cooperate fully with any investigation concerning or relating to the District's network activity.

#### School District Internet Code of Conduct

Use of the Internet by students and staff of the District shall be in support of education and research that is consistent with the mission of the District. Internet use is limited to those persons who have been issued District-approved accounts. Use will be in accordance with the District's Acceptable Use Procedures and this Code of Conduct. Users are expected to abide by the following terms and conditions:

1. Protect their Internet log from others.
2. Respect the privacy of other users. Do not use other users' passwords.
3. Be ethical and courteous. Do not send hate, harassing, or obscene mail, discriminatory remarks, or demonstrate other antisocial behaviors.
4. Maintain the integrity of files and data. Do not modify or copy files/data of other users without their consent.
5. Treat information created by others as the private property of the creator. Respect copyrights.
6. Do not use any network in a way that does not disrupt its use by others.
7. Do not destroy, modify or abuse the hardware or software in any way.
8. Do not develop or pass on programs that harass other users or infiltrate a computer or computing system and/or damage the software components of a computer or computing system, such as viruses, worms, "chain" messages, etc.
9. Do not use the Internet to access or process pornographic or otherwise inappropriate material.
10. Do not use the Internet for commercial purposes.

The District reserves the right to remove a user's account if it is determined that the user is engaged in unauthorized activity or is violating this code of conduct.
